Summary

• 8+ years of experience on consulting on .NET based solution.

• 9+ years of experience on software development.

• 9+ years of experience on Providing Training on .NET Technologies.

Very passionate about software development and related fields. I am interested to learn in depth knowledge in topics rather than floating on and jumping around.

Worked as a Software Engineer, Team Lead, Development Lead and Consultant in various period of time on IT Industry. Professional speaker about .NET technologies. I consider myself as a life-long learner, sharing the knowledge with industry peer is part of my learning, cause sharing makes me more understanding on topics.

I love to learn with team, work with team, it's nice to collaborate with human.
